SPC 1000 SERIES

SOLID PHENOLIC CORE LOCKERS

SPC 1000 Series Solid Phenolic Core lockers are the material of choice when a high degree of design flexibility is desired, or where durability and strength are required. These lockers are fabricated to stand the test of time. The dense components, combined with stainless steel fasteners, stand up to the most extreme conditions of moisture and humidity.

Phenolic is impact, water and corrosion resistant, and does not support bacteria. The superior construction, and materials used in the locker system make it adaptable to all types of facilities, including health clubs, country clubs, and executive washrooms. Phenolic lockers can easily be customized. Now available in color-thru phenolic colors upon request.
